

FILM INDEPENDENT

Job Description

Web Developer

Film Independent's part time front-end Web Developer is a freelance position that works directly with the Website & Database Manager to maintain and build out Film Independent's websites an average of 60 hours a month.

Responsibilities:

- Build custom Wordpress themes from PSD files.
- Maintain current Film Independent sites, including filmindependent.org and its sub-sites (LACMA, Press, Talent Guide, etc.), lafilmfest.com and spiritawards.com.
- Communicate with Director of Marketing, Website & Database Manager regarding development needs.
- Provide general web support for Film Independent staff and audience.
- Coordinate with internal teams and departments for future website builds and updates.

Requirements:

- Web development skills: HTML, CSS, JavaScript, PHP, jQuery, etc.
- Experience building and optimizing custom Wordpress themes.
- Some Drupal experience to maintain two lab applications sites (see talent-dev.filmindependent.org).
- Must be willing to work in conjunction with Website & Database Manager when managing issues with 3rd party providers (web hosting, security, etc.)
- Must have strong attention to detail.
- Must be willing to communicate via phone, email and project management site Redbooth (formerly Teambox).
- Ability to manage tasks and workflow to meet tight deadlines.
- Ability to prioritize and work well under pressure.

The following are preferred but not required:

- Bachelor's degree
- Graphic design ability and proficiency with Photoshop/Illustrator.
- Experience building responsive and/or mobile sites (e.g. Bootstrap) preferred.
- Experience working with Net Community a plus.
